

Reference(s)	[See Overleaf]
Description	A complete system to connect suction sources to suction waste collection systems, suction catheters, yankauers, suction probes and other suction devices. Pennine offer a range of easily connected, interchangeable products in a choice of tubing length and diameter
Intended Use	The channelling of blood, body fluids and tissues for disposal during surgical suction procedures.
Duration of Use	Normally intended for continuous use of less than 60 minutes. Within the time period the duration of use will be patient specific.
Product Information	<p>'F' (Female) connector fits suction machines and male tapered connections for instrumentation</p> <p>'M' (Male) connector push fits into the 'F' connector and is normally used to connect to the standard funnel fitted on suction catheters. Can also be used to connect lengths of tubing together for longer lengths.</p> <p>Application of 'M' connector with 'VC' (Vacuum Control) vents converts a standard catheter to vacuum control application.</p>
Main Materials	<p>Tube - PVC (DEHP Free)</p> <p>Funnel Connector - PVC (DEHP Free)</p>
Quality System	ISO 13485
EU Classification	EU Medical Device Directive Classification I
Pack Factor	[See Overleaf]
Packaging	Sterile, individual peel pouches
Sterilised by	Ethylene Oxide
Shelf Life	5 years

Shore Hardness and Product CH

Dimensions [See Overleaf]

Shore Hardness 77

Product CH [See Overleaf]

Storage and Safety:

Toxicity Not applicable, no body contact

Storage Store in a clean, cool, dry place, away from direct sunlight.
